## Research Interests

I am currently a 4th-year Ph.D. student in the Department of Computer Science and Engineering at Texas A&M University. I am working at the DATA Lab under the supervision of Prof. [Xia \(Ben\) Hu](#). My research focuses on graph learning, fairness in machine learning and automated machine learning. Specifically, my research lies in the following topics:

- **Graph Learning:** large-scale graph neural networks, graph augmentation
- **Fairness:** egocentric fairness and structure fairness in graph neural network
- **AutoML:** automated recommendation, automated information extraction
